About Sprite— Shower Filter Pioneers

Contact: Sherry Farley, V.P. Sales & Marketing

Sprite began in 1974 manufacturing electronics, water instruments, drinking water filters and filtration accessories. In 1987 Sprite introduced the first non-carbon shower filter called the Shower-Mite. Since then, Sprite has produced more than 20 different shower filter models. Today, Sprite is the premier authority in shower filtration technology, manufacturing, marketing and sales. With over 23 U.S. and International patents, including proprietary filtration technologies, Sprite continues to set the pace and lead the way.
